2002

Bonjour!
Montréal

International Telecommunications Energy Conference

Le Palais des Congrès de Montréal

Sunday, September 29th through

Thursday October 3rd 2002

7 October 2002

Jeannot Painchaud
Director
Cirque Éloize
4230, rue Hogan,
Montréal, Québec H2H 2N3

Dear M. Painchaud,

On behalf of the Management Committee and all the participants of the 24th International Telecommunications Energy Conference, I wish to thank you and your troupe for the breathtaking show you produced for our conference.

Our delegates were nothing less than awe-struck by the acts they saw, the incredible feats of physical and acrobatic strength and prowess and the well-orchestrated artistic presentation. Please communicate our appreciation and admiration to your artists. Your show is one that will be remembered and talked about by the INTELEC community for years to come. A particular thank you to Jamie for successfully turning myself, who has always studiously avoided being put on stage, into a circus comic for a night!

I thank you for proposing the Leila Marim Band whose music and vocals were appreciated by all. Several people remarked to me on their enjoyment of the music and particularly wanted the Band members to know how much they were enjoyed. Playing to a banquet crowd during the service is a somewhat thankless task, as the audience tends not to demonstrate their appreciation. The Leila Marim Band provided much more than just background music and their excellence was fully recognized by our audience.

Finally, I am very appreciative of your open and enthusiastic approach to planning a show tailored to the needs and tastes of our event. The result was an enormous success!

Best of luck as you tour with your new show, Nomade.

Sincerely,

Michael S. Davis
General Chairman - IEEE INTELEC 2002
